 —From what we can learn from
 various sources, now is a good
 time to watch the market. Stock
 will be low for a while and the wise
 ones are investing. This Fall will
 witness a good boom.

—The San Francisco Stock and
 Exchange Board adjourned until
 Tuesday, on account of the death of
 S. B. Wakefield, a member of the
 Board, who died in San Francisco
 yesterday. The funeral will take
 place on Monday.
 —A great many reports of pro-
 gress in railroad work have been
 started and circulated at Santa
 Rosa by private parties for specula-

 contradicted when investigated and
 their falsity ascertained.
 —Guy Webber of Cincinnati,
 acting for Eastern capitalists,
 has finished the purchase of 2,
 000,000 acres of land in Sonora,

—A lot of Piutes were out at
 Walker Lake praying to the Great
 Spirit to send different weather.

 Bulletin was invited to assist in
 prayer but the old Chief stopped
 him on the ground that he was
 "bad medicine."

—Grover Cleveland has rescinded
 his order returning the rebel battle
 flags on the grounds that he has no
 authority to act. It is therefore to
 be inferred that all that stands be-
 tween Cleveland and the flags is
 the authority. The will but not
 the way is there.

—In case her husband is jailed
 Mrs. Davitt says she will take the
 stump. She will find that address-
 ing a large audience with short-
 hand reporters taking down the
 notes is quite different from the
 well rehearsed midnight lecture
 with only two critics.

—There is a tremendous war
 cloud spreading over the Sandwich
 Islands. The King thinks he does
 not get enough "hasheesh" and
 "poi" and his subjects feel that he
 gets too much. The Speckles, who
 are no longer on good terms with
 the bones they have picked, say
 they would not be surprised if a
 revolution in the Islands bore a
 Republic.

—George C. Gorham, formerly
 Secretary of the United States
 Senate, in an interview last week
 expressed the opinion that Mr.
 Blaine went to Europe in order to
 leave the shaping of events entirely
 to Providence and his friends. Mr.
 Gorham thinks the Republicans
 can elect the next President, but
 that to do it they should nominate
 John Sherman.

School Report.

EDITOR APPEAL: The Board of
 School Trustees held a special meet-
 ing last evening at Mr. Tremor
 Coffin's office. A full Board was
 present. Mr. Howe, the Principal,
 was present and announced the
 resignation of Miss Fanny Dorsey as
 teacher, which was accepted, and on
 motion of Mr. Coffin, the Board re-
 elected all the present teachers to

 past, except Miss Bertha Wagner,
 who was transferred from the South
 Ward to the position made vacant in
 the Central Building by the resigna-
 tion of Miss Fanny Dorsey. Miss Val-
 ley French was elected to the po-
 sition at the South Ward, at a salary
 of sixty dollars per month for the
 first year. Mr. M. A. Bowker was
 elected Janitor for the Central School-
 house at a salary of sixty dollars per

Rebel Flags.

His Excellency, Governor Steven-
 son, on the 17th instant, received
 the following telegram from the
 World, of New York.

New York, June 16, 1887.

To Governor C. C. Stevenson: Please
 telegraph us briefly your views on
 the proposition to return Southern
 battle flags to the respective States.
 "THE WORLD."

To the above Governor Stevenson
 replied as follows:

CARSON CITY, NEV., June 17, 1887.

To "The World," New York:
 Flags should remain with the
 loyal people, as an evidence to ris-
 ing generation of patriotism and
 devotion to the Union.

C. C. STEVENSON,
Governor.

Another Big Mining Sale.

The Silver State learns from good
 authority that the Pittsburg mine
 has been sold to a London Com-
 pany for \$300,000. J. A. Blossom
 of Battle Mountain, negotiated the
 sale and is the principal owner of
 the property. A great many say
 Blossom is lucky, but the fact is
 his good fortune is due to his energy
 not his luck. He invested heavily
 in the Pittsburg, spent money in
 developing it, and after making it
 paying property disposed of it.
 There are plenty of good mines in
 the country, but the trouble is
 there are not enough Blossoms to
 prove their value.

Heavy Meat.

On Friday afternoon the Holstein
 bull "Silver Brick" who is but a
 year and one week old was weighed
 on Davis' scales. He fluctuated
 the beam at 825 pounds. His sire
 who now weighs 1,760 lbs, weighed
 but 600 when he was but a year
 old. "Brick" threatens to be big-
 ger than his daddy. Several parties
 lost money betting that he would
 not go over 700.

—FOR SALE.—A large roomy
 residence in the Western part of
 the city. Fine location. Apply at
 this office.

Why the Humboldt is Low.

Ranchers along the Humboldt
 have been wondering why the water
 has been so low this season, and
 complaining of the scarcity of the
 same. The Battle Mountain Ne-
 vadan throws some light on the
 matter as follows:

All along the Humboldt River,
 West of Beowawe, is heard a com-
 plaint from the ranchers and land
 owners that a sufficient flow of
 water does not come down the
 river to irrigate the meadow lands
 that have heretofore produced large
 crops of natural grass and furnished
 their owners with an abundance of
 hay and pasturage. They alleged
 that the present scarcity of water
 is due to the fact that G. W. Gray-
 son, a large land and cattle owner
 at Beowawe, had dammed the river
 at that place and turned out so
 much of the water that a large lake,
 twenty or twenty five miles in cir-
 cumference, has been formed on
 land that was heretofore dry and
 produced nothing but sagebrush,
 thus sinking the waters of the river
 into the porous ground of the valley
 many miles above its natural ter-
 minus.

Klein's Beer.

Whenever Jake Klein has an ex-
 ceptionally good brew of beer, he
 sends a keg of his best to the AP-
 PEAL office for the editor to sample.
 An announcement is then duly
 made and the thirsty thousands
 who are waiting for the expert edi-
 torial opinion rush to the beer re-
 sorts and guzzle it down their heat-
 ed throats.

It has been nearly two months
 since Klein has sent a keg of beer
 to this office and from his reticence
 in the matter we begin to suspect
 that something is wrong with the
 brew. We hope he will correct
 whatever small error may have
 arisen in the formula and get it
 where we can reach it readily. If
 there is really anything the matter
 with the beer there are several
 samplers in this office who can
 diagnosis the trouble thoroughly
 and point out the weak spot in the
 beer.

The Editor's Critic.

He stands in the stores with
 his back to the stove and tells how
 he could run a newspaper; how he
 could be as independent as a hog
 on ice, and call things by their
 right names; how he could expose
 corruption in high places; how he
 could write good common sense,
 and none of your frivolous, try-to-
 be-funny stuff. Then he criticises
 other people's method of conduct-
 ing newspapers, and just wishes
 some one would give him a chance
 to show his journalistic ability.
 The way to cure one of these chaps
 is to get him to agree to write a sen-
 sible article every day for a week.
 Before the week is out he is sure
 to be pumped dry, and will
 gap worse for an idea than a chick-
 en does with the pip.—Ex.

The Overland.

The Overland has made a new de-
 parture and is illustrating the re-
 sources and beauties of California
 by the photo lithographing process.
 The pictures of natural scenery of
 California are exquisitely printed
 and makes a new era for the Over-
 land. Nevada ought to advertise
 her resources in the same manner.
 The cost would be trifling compared
 to the result.

Sawmill Men to be Prosecuted.

The Commissioners of Washoe
 county have instructed the Clerk to
 communicate to Judge R. S. Mesick
 of San Francisco, to ascertain his
 terms for representing this State in
 the proposed suit to prevent the
 continued pollution of the waters of
 the Truckee river by the saw-mill
 men.

This is rather hard on the Reno
 lawyers.

Another Big Train Robbery.

GALVESTON, Texas, June 18.—
 A report has just reached here that
 the East-bound California express
 on the Southern Pacific Railroad
 was robbed this morning near Fla-
 tonia, about 95 miles East of San
 Antonio. The express car was rob-
 bed, but nobody was killed. It is rum-
 ored that the robbers secured
 \$75,000.

A Smallpox Nest Stirred up.

SAN FRANCISCO, June 18.—The
 Health officers found six American
 laborers afflicted with smallpox in
 the vicinity of the Pacific Mail
 dock this morning. The contagion
 was spread by a Chinaman released
 on habeas corpus from the steam-
 ship City of New York.
